ABOUT ME

Product Designer with a background in journalism and UX design, focused on solving user problems through research driven design. Experienced in end to end product thinking, from user research to high fidelity prototypes.

WORK EXPERIENCE

BondsPe / UX/UI Designer Intern

JAN 2026 - PRESENT, NEW DELHI

- Designed an end-to-end product for BondsPe including research, wireframing, UI design, and prototyping.
- Collaborated with developers and stakeholders to build scalable fintech experiences, now successfully live in production.
- Focused on usability, responsive design, and intuitive user flows to improve overall product experience and engagement.

Pinak AI Innovations / UX/UI Designer Intern

SEP 2023 - DEC 2023, NOIDA

- Worked as a Junior UX/UI Designer, focusing on information architecture, user flows, and AI-driven user experiences.
- Designed app screens and contributed to wireframing and usability improvements.

PERSONAL PROJECT

Mindless Scrolling Intervention

MAY 2025, CHITKARA UNIVERSITY

- Led UX research for a mental well-being focused digital intervention.
- Conducted secondary research and behavioral analysis to identify patterns of mindless scrolling.
- Designed and prototyped an Instagram feature using layered scroll interventions such as slowed scrolling, fading visuals, subtle audio cues, and haptic feedback.

ACHIEVEMENTS

Won Design Hackathon - Huephoria

ONETHING DESIGN STUDIO (2025)

Gold Medalist

AMITY UNIVERSITY (2024)
